

Dear Sir,

Thank you for your purchase! Step by Step, Easy to use!

1. The Meta Trader 4 (MT4) Trading Platform

Before getting started it is important that you have an excellent broker that provides the Meta trader 4 platform. As you may or may not know, all brokers are different. Some are more reliable than others, different spreads, data feeds, and such. It is important to pick high quality broker.

We personally have done some tests and have concluded which brokers work well with our software and in general. Thus, we HIGHLY RECOMMEND the brokers below this paragraph. If you do not have MT4 installed on your computer, you can download a free copy by going to one of the following brokers and requesting a demo account:

Please open new real account. Type: Leverage: 1:500 ECN USD or Euro.
PARTNER brokers with minimum deposit €1000 / \$1000

Spreads as low as 0.0 Pips  

*T&Cs apply. Forex and CFD trading is high risk and can result in the loss of all your invested capital. [Read More](#)

Please open new real account. Type: Leverage: 1:500 Zero USD or Euro.

ICMarkets or XM - not required. But it is recommended!

2. Windows VPS

What is a Windows VPS?

If you're not sure that your provider is able to give you stable connection, or if you don't want to leave on your PC night and day, you can use a VPS service.

It is easy, handy, comfortable to use VPS instead of keeping on your PC all the time, not to mention the importance of having continuous, stable internet connection. Use: Windows VPS.
